SKILLS

Programming: Java, Python, JavaScript

Frontend: HTML, CSS

Database: MySQL

Core Concepts: OOPS, DBMS

Tools & Platforms: VS Code, Jupyter notebook, Eclipse, Pycharm, Tableau

Libraries & Frameworks: Numpy, Pandas, Matplotlib, seaborn, Scikit-learn

PROJECTS

Restaurant Recommendation System

Jun 2025 – Jul 2025

Tech: Python, Streamlit, Scikit-learn, pandas, Numpy

- Built an ML-based recommendation engine using content-based filtering and cosine similarity.
- Developed a Streamlit web app for real-time restaurant suggestions with clean UI and smooth interaction.
- Improved model accuracy and performance through effective data preprocessing and feature engineering.

INTERNSHIP

Cognifyz Technologies

Jun 2025 – Jul 2025

Machine Learning Intern

- Gained hands-on experience in machine learning algorithms, model development, and evaluation.
- Worked on projects like Restaurant Rating Prediction and Cuisine Classification using Python, Pandas, NumPy, and Scikit-learn.
- Improved data preprocessing, feature engineering, and model accuracy through iterative testing and analysis.

CERTIFICATIONS

Python for Data Science (Elite+Silver) – NPTEL

Sep 2025

AI Tools and ChatGPT Workshop – Be10x

Jul 2025

Visualizing Data with R – IBM

Apr 2024

EDUCATION

Sreenivasa Institute of Technology and Management Studies

2022 – 2026

Bachelor of Technology in Computer Science and Engineering, CGPA: 8.85

Sri Chaitanya Junior College

2020 – 2022

Intermediate, Percentage: 87%

Prakasam Vidyalaya English Medium School

2019 – 2020

Secondary Education, Percentage: 89%
